

PAYMENT RELEASE AUTHORIZATION

ARTICLE 1 — RELEASE SCOPE

This authorization records a human-verified vendor payment release for ACME Components GmbH, case `case_acme_po_4821`, purchase order PO-4821. It documents approval evidence only; it does not execute payment.

ARTICLE 2 — DETERMINISTIC SAFETY BOUNDARY

VeriRemit compares the payment request with trusted source data and blocks a changed bank account until an independent human callback is recorded. The generated artifact reflects approved structured data at the moment of release.

ARTICLE 3 — VERIFICATION CONTROLS

The following deterministic controls were satisfied before document generation:

`vendor_id_match` — PASS — Vendor identifiers match.

`vat_id_match` — PASS — VAT identifiers match.

`po_number_match` — PASS — Purchase-order identifiers match.

`currency_match` — PASS — Currencies match.

`invoice_amount_matches_po` — PASS — Invoice amount matches the approved purchase order.

`beneficiary_name_match` — PASS — Beneficiary names match.

`bank_change_vendor_match` — PASS — Bank-change request vendor matches the verified vendor record.

`bank_change_request_match` — PASS — Current invoice bank account matches the submitted bank-change request.

`bank_account_continuity` — BLOCK — Current invoice bank account differs from verified historical bank details.

`critical_confidence_threshold` — PASS — All critical extracted fields meet the 0.90 confidence threshold.

CONTROL COUNT: 10

ARTICLE 4 — HUMAN VERIFICATION

Reviewer Demo Finance Controller independently verified the bank change. Verification reference: VR-2026-4821. Recorded at: 2026-09-03T13:51:18.377Z.

ARTICLE 5 — RELEASE BOUNDARY

This document is generated by Doctavian only after VeriRemit's deterministic approval gate clears. Foxit assembles and routes the packet for human signature. The agent cannot sign or execute payment.

RELEASE DETAILS

Supplier: ACME Components GmbH
Vendor ID: V-1042

PAYMENT DETAILS

Amount: 48620 EUR
Purchase Order: PO-4821
Verified IBAN: DE72 5001 0517 5407
Beneficiary: ACME Components GmbH
• Verification: VR-2026-4821

ACME Components GmbH

Approved supplier record - maintained before the current payment request

VENDOR ID

V-1042

VAT ID

DE123456789

BENEFICIARY

ACME Components GmbH

VERIFIED IBAN

DE89 3704 0044 0532

TRUSTED PHONE

+49 30 555 0104

CONTROL NOTE

Independent verification must use this pre-existing phone number, never contact details from a bank-change request.

PO-4821

Issued by Demo Manufacturing Europe GmbH to ACME Components GmbH

SUPPLIER

ACME Components GmbH

VENDOR ID

V-1042

ORDER TOTAL

48,620.00 EUR

DELIVERY

September 2026 production components

PAYMENT TERMS

Net 30 - release after three-way verification

CONTROL NOTE

This purchase order contains no instruction to change supplier banking details.

ACME Components GmbH

Prior verified invoice retained as payment-history evidence

VENDOR ID

V-1042

VAT ID

DE123456789

BENEFICIARY

ACME Components GmbH

HISTORICAL IBAN

DE89 3704 0044 0532

HISTORICAL STATUS

Paid - verified account on file

CONTROL NOTE

The historical account matches the verified vendor master.

CURRENT INVOICE - PAYMENT REQUEST

Invoice 8842

ACME Components GmbH - references PO-4821
